I have a 2012 Ram 1500 Laramie Crew Cab with 5.7 L engine. I have installed Recon head lights

with HID bulbs. The high beams are flickering in daytime running mode because the truck's lighting module only supplies a reduced voltage to the high beam bulbs which is not enough voltage to run the HID ballasts.

The number of individual drivers in a car speaker. Speakers with 2 drivers are known as a 2-way, and 3 drivers are known as a 3-way. Component systems are often referred to as "separates" because the tweeter is not attached to the midwoofer (main speaker driver) and mounts separately in a location such as a door post.
