0 Comments . Big block, widebody Pontiac packs some of the prettiest piping of SEMA. While the majority of the vehicles on display at the ongoing 2018 SEMA Show in Las Vegas are late model cars and trucks, but this 1970 Pontiac Firebird Trans Am is a gorgeous example of a SEMA-ready classic. This car is on display in the Vibrant Performance booth and in addition to the custom body, chassis and ...

1970 Pontiac Trans Am is One Insane Road Racer

0 Comments . Silverado Work Truck, Custom, LT, LTZ and High Country offer different design, features and technologies tailored for different customers. Chevrolet knows no two truck customers are the same, and as such continues to expand its truck franchise with five distinct trim levels for the all-new Silverado HD: Work Truck, Custom, LT, LTZ and range-topping High Country.

2020 Silverado HD High Country: More Luxurious, Less ...

Using a pair of pliers, now slide the spring clamps off the 4 hoses that go to the water pump. There will be 2 smaller hoses going into the passenger side of the pump, 1 big one going to the passenger side of the pump, and one big one going in towards the center of the water pump.

Cam Basics: When deciding which camshaft is right for you, the best you can do is try to make an educated guess based on previous experiences or other's experiences. There are countless books about camshaft design and theory, so trying to explain what all to choose is pointless and this is why vendors are out there to see what works well in the LS1 for us.

Pat You mention that the Ford mod motors aren't very accepting of HP unless you use forced induction. That is not true at all. You can actually take any mid 90s on up 4.6 or 5.4 SOHC and grind out the stock heads to make up to 70% better air flow and this is from stock heads.. They have really done amazing things with the mod motors in the last 12 years now that we are learning about them ...

Modern Engine Swaps and their problems - themuscleguy.net

Hi folks, my name is BK. I've been lurking this forum for years now, gleaning knowledge and inspiration from so many contributors. Since I've owned my project car, I've met a lot of great people via swap meets, craigslist, and car shows that were interested in seeing what I was up to. Its for this reason, and the fact that I want to get any constructive feedback/advice as I move forward ...

Going Green "Ask not what your country can do for you, but what you can do for your country!" (JFK) Yeah, 300hp is nice, increasing Zero-to-Sixty by 3.2 seconds is impressive, and 60% improvement on MPG saves money but if I couldn't achieve any "green" benefit, the project was to be terminated.

Different gauges have different temperatures at the 12 o' clock position, as can be seen from the accompanying photographs. Depending on the designed operating temperature of your engine, when selecting a gauge, along with other considerations you should consider selecting a gauge that displays the correct operating temperature at the 12 o' clock position.
