

Centurion Main Battle Tank 1946

The Centurion was the primary British main battle tank of the post-Second World War period. Introduced in 1945, it is widely considered to be one of the most successful post-war tank designs, remaining in production into the 1960s, and seeing combat in the front lines into the 1980s. The chassis was also adapted for several other roles, and these have remained in service to this day.

Centurion (tank) - Wikipedia

Main battle tanks are often classified as belonging to a particular generation, although the actual definition and membership in these generations is not clearly defined. Soviet and Russian military planners organize tanks with first generation of tanks up to 1945, and four generations of main battle tanks while Canadian strategists organize main battle tanks into three generations.

List of main battle tanks by generation - Wikipedia

Too late for WW2. The Centurion was simultaneously the last of the cruiser type and the first main battle tank. It was one of the most influential design in history, the embodiment of Darwinian evolution in solid cast steel, summed up in a few years of bloody fighting.

FV4018 Centurion BARV - Tank Encyclopedia

Le Centurion est le premier char de bataille britannique de l'après-guerre. Il est souvent considéré comme l'un des meilleurs chars d'assaut britanniques de tous les temps. Conçu pendant la Seconde Guerre mondiale, il a été déployé en Europe, mais trop tard pour le combat actif. Il a servi pour la première fois pendant la guerre de Corée, où il aurait surpassé les chars américains ...
