BatteryStuff Tech Assuming they are 2 volt cells currently sitting at 1.75v then it would be possible to make a 12v battery pack in series, as long as the batteries will charge up.. It is the same method as you see above in the article... negative terminal of the first battery to the positive terminal of the second battery, and then continue with the negative terminal on the second battery to ...

Understanding Battery Configurations | Battery Stuff

When you purchase a MegaSquirt ® kit, the components typically arrive individually packed, with part numbers. As a result, while you should verify that you have received all you ordered, it is not necessary to identify each item by color, markings, etc.
