I want a manual transmission to go with my Chevy 350 that I'm rebuilding. I, without knowing anything about transmission brands and which is better etc, am looking for a good manual transmission and if not too expensive with overdrive. The first transmission I ever looked at (which was 20 minutes before I asked this) was the nv3500 which was what I was looking for: five speed, manual ...

First, you have to determine the torque output of the engine, since the gearboxes are rated by this number. Horsepower rating is important too, but torque is what will eat your clutches up or otherwise snap parts within the unit. The 4L60 can hand...

What is the best transmission to use for a Chevy 350 engine?

OEM manual transmissions for powerful cars haven't evolved much in recent years, save for boutique applications, so junkyard choices aren't exactly broad. We've covered so much ground in nearly every other aspect of the swap, but manual transmission options remain doggedly sparse.

350 auto vs manual trans If you want to have fun with your car, 4-speed is the way to go. I like the original Muncie 4-speed. Find one with fine spline input shaft and a 1 inch counter-shaft and you will have a very sturdy trans. Also, there are plenty of vendors still making parts for these trans. The car is very easy to swap to a four speed.
