The first production Familia, styled by a young Giorgetto Giugiaro while working at Carrozzeria Bertone, appeared in October 1963. In line with Mazda's policy of only gradually approaching the production of private cars (a luxury in Japan at the time), the first Familia was initially only available as a commercial two-door wagon called the Familia van.

This does not sound good. The radiator cap keeps coolant in the engine and radiator once the coolant heats up it need to expand and the radiator cap allows coolant to push a small amount of coolant into he coolant expansion tank, as the coolant in the radiator "cools down" that coolant is drawn back into the radiator through a second valve in the radiator cap.
