Nursing is a profession within the health care sector focused on the care of individuals, families, and communities so they may attain, maintain, or recover optimal health and quality of life. Nurses may be differentiated from other health care providers by their approach to patient care, training, and scope of practice. Nurses practice in many specialties with differing levels of prescription ...

1. Introduction. Professional confidence is an essential trait for new graduate nurses to develop to provide quality patient care in today's complex hospital setting (American Association of Colleges of Nurses, 2008, Clark and Springer, 2012, Perry, 2011). Patients admitted to the hospital have higher acuities, comorbidities, and multi-system disorders thereby intensifying the role and ...

Gerontological nursing is the specialty of nursing pertaining to older adults. Gerontological nurses work in collaboration with older adults, their families, and communities to support healthy aging, maximum functioning, and quality of life. The term gerontological nursing, which replaced the term geriatric nursing in the 1970s, is seen as being more consistent with the specialty's broader ...
