The Atari Jaguar is a home video game console that was developed by Atari Corporation. The console is the sixth programmable console to be developed under the Atari brand, originally released in North America in November 1993. It is also the last Atari console to use physical media. Controversially, Atari marketed the Jaguar as being the first 64-bit video game console, while competing with the ...

The P5 Pentium competitors included the Motorola 68060 and the PowerPC 601 as well as the SPARC, MIPS, and Alpha microprocessor families, most of which also used a superscalar in-order dual instruction pipeline configuration at some time.. Intel's Larrabee multicore architecture project uses a processor core derived from a P5 core (P54C), augmented by multithreading, 64-bit instructions, and a ...
