

Simple Fertilization Diagram

Fertilisation in Human. Fertilisation can be defined as the fusion of the sperm nucleus with the egg nucleus to form a diploid cell known as zygote. The fertilisation is internal in the human reproductive system. It is achieved by the insertion of the male organ, penis into the vagina of the female. The sperms are deposited in the vagina of the ...

Fertilisation Explained with Diagrams, Fertilisation in ...

Fertilization is the fusion of haploid gametes, egg and sperm, to form the diploid zygote. Note though there can be subtle differences in the fertilization process which occurs naturally within the body or through reproductive technologies outside the body, the overall product in both cases is a diploid zygote. In fertilization research, after humans the mouse is the most studied species ...
