In some cultures, the role of the matchmaker was and is quite professionalized. The Ashkenazi Jewish shadchan, or the Hindu astrologer, were often thought to be essential advisors and also helped in finding right spouses as they had links and a relation of good faith with the families. In cultures where arranged marriages were the rule, the astrologer often claimed that the stars sanctified ...

Linearity is the property of a mathematical relationship or function which means that it can be graphically represented as a straight line. Examples are the relationship of voltage and current across a resistor (R), or the mass and weight of an object. Proportionality implies linearity, but linearity does not imply proportionality.

Linearity - Wikipedia

The term pH (in that exact form - lowercase p, uppercase H) was first used by WM Clark (inventor of the Clark oxygen electrode) in 1920. (see: Compact Oxford English Dictionary) However the concept was invented by the Danish chemist, Soren Peter Sorensen in 1909 to refer to the negative log of hydrogen ion concentration; he used the term P H in his original paper.

The present article describes the nature, scope, and purpose of Contextual Behavioral Science (CBS). Emerging from behavioral psychology but expanding from those roots, CBS is based on contextual assumptions regarding the centrality of situated action, the nature of epistemology versus ontology, and a pragmatic truth criterion linked to the specific goal of predicting-and-influencing ...
